Mahrab Hossen

Full-Stack Software Engineer | PHP · Laravel · MySQL

Uttara, Dhaka, Bangladesh | 01950047492

mahrabbappy33@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Full-Stack Software Engineer with over a year of experience building and maintaining web-based business applications using **PHP, Laravel and MySQL**, including ERP, SaaS and role-based systems. Skilled in database design, RESTful and third-party API integration, **n8n automation** and AI-integrated solutions. Working knowledge of **Vue.js and Inertia.js**, with experience taking features from requirements and database design through development, testing and continuous improvement.

TECHNICAL SKILLS

Backend	PHP (Laravel, CakePHP), OOP, RESTful API development, third-party API integration, authentication and role-based access control
Frontend	JavaScript, TypeScript, React, Vue.js, Inertia.js, HTML5, CSS3
Databases	MySQL (schema design, relationships, query optimization), PostgreSQL, SQL Server
Automation & AI	n8n workflows, Gemini Live API, Google Custom Search API, AI use-case research and proof-of-concept development
Tools	Git, GitHub, VS Code, IntelliJ IDEA, Android Studio, XAMPP, Laragon

WORK EXPERIENCE

Software Engineer October 1, 2025 – Present

eGeneration PLC, Kuril, Dhaka, Bangladesh

- Work with the AI team to research AI use cases, evaluate technologies and support proof-of-concept development.
- Test and integrate third-party APIs to deliver reliable AI-powered application features.
- Actively develop and continuously enhance AI-integrated solutions, including the live eGInterview and eGSales-AI platforms (see Projects).

Intern (PHP) July 1, 2025 – September 30, 2025

eGeneration PLC, Kuril, Dhaka, Bangladesh

- Developed and maintained web applications using PHP/Laravel and MySQL.
- Implemented REST APIs and role-based authentication for system users.
- Managed version control and collaborated on full-stack development using Git.

PROJECTS

School Management System (ERP) GitHub

- Contributed to a school ERP covering student records, fee payments, attendance and report generation.
- Designed and optimized MySQL databases for efficient, scalable data handling; implemented role-based access control for administrators, teachers and students.
- Collaborated with team members using Git/GitHub to keep the workflow smooth and maintain code quality.

  Tech: PHP, Laravel, MySQL, Git/GitHub

Bangladesh Navy Welfare Association – Welfare Management System

Backend Developer | Project link

- Designed and optimized MySQL databases to manage member and family-related data securely and efficiently.
- Built backend features in PHP/Laravel, including data management, authentication and role-based access control.
- Improved reliability and maintainability by resolving issues, optimizing queries and supporting ongoing feature enhancements.

  Tech: PHP, Laravel, MySQL

eGInterview – AI-Powered Interview Platform Live

- Developed a role-based AI interview platform for recruitment, loan and bank account-opening workflows.
- Implemented Bengali-English voice interviews, structured Q&A, speaker-based transcription, document submission, deterministic loan assessment and analyst review.

  Tech: Laravel, React, TypeScript, PostgreSQL, Gemini Live API

SaaS Subscription Management System GitHub

- Developed a SaaS-based subscription management system with automated billing, user subscription handling and streamlined plan management.
- Integrated SSLCommerz for payments and Mailtrap for email.

Job Portal System – Full-Stack Recruitment Platform GitHub

- Developed a full-stack job board connecting candidates with employers, with job posting, resume uploads, smart job filtering, role-based access, online applications and application tracking.

eGSales-AI – Profile Scraping & Email Outreach Live

- Built an n8n workflow for professional-profile discovery, data cleaning, Excel export, email outreach and follow-ups.
- Integrated the Google Custom Search API for targeted LinkedIn results and used JavaScript for parsing, deduplication, country detection and batch processing.

  Tech: n8n, JavaScript, Google Custom Search API

EDUCATION

B.Sc. in Computer Science & Engineering 2020 – 2025

International University of Business Agriculture and Technology (IUBAT) | CGPA: 3.20

Higher Secondary School Certificate (HSC) 2019

Tongi Government College, Dhaka, Bangladesh

Secondary School Certificate (SSC) 2017

Tamirul Millat Kamil Madrasah, Dhaka, Bangladesh | GPA: 4.89

LANGUAGES

Bangla	Native proficiency
English	Fluent in listening, speaking, reading and writing
Arabic	Fluent in reading and writing; basic speaking

INTERESTS

Web and software development, database systems, cricket, football, badminton and travelling.
